## Recording Course 101

Introducing our new recording Courses at the premises of The Guitar School. The course offers a detailed insight into the world of modern music production providing you with a comprehensive understanding of the recording process.

From recording killer guitar sounds to ambient piano samples and everything in between, you will learn the basic recording techniques enabling you to start creating your own music. With both theory and practical studies you will learn the skills needed to confidently complete practical tasks that are set throughout the course. All tuition will be taking place within a commercial recording studio.

Some of the topics you will cover:

- Instrument recording.
- Knowing your equipment.
- Basic mixing techniques.
- Understanding effects.
- Setting up a home studio.
- Live sound.

The Recording Course will run for Ten weeks and students will receive a total of 20 hours of quality tuition. Session times will be in the evenings with weekend sessions available also ensuring that prospective student can find a class time which fits around their lifestyle.

A basic knowledge of music will be required and a P.C. In addition to this you will need Cubase Studio 5 this can be purchased from the School directly at student rates, saving you up to 50% on your set up cost.
